# Friends

The more we talk  
about friendship, the less  
I wish solitude.

The books are my friends  
also in the middle of night –  
without excuses.

I forget things,  
but need I know everything?  
My mobile phone knows.

Now I can speak  
with all people in the world.  
Do I really want to?

A jackdaw follows,  
when I'm digging in the soil.  
Worms are served on plate.

Take care of friendship,  
just like a flower in a pot.  
Love and nourish it.

Sitting by a fire  
roasting sausages on sticks.  
Friendship tastes good.

I make an air-plane.  
The child runs after it and  
shouts: Do it again!

The queue does not move  
while I wait at the airport.  
Luckily you are here.

We have known each other  
since the first day at school.  
When did we get old?

My friend decides that  
the sofa is his, not mine.  
Who opposes a cat?
